

Advanced Oral Proficiency

The Academic Spoken English unit will offer a six-week, non-credit, advanced oral proficiency in English course. The purpose of this course is to diagnose student fluency problems in English and to introduce self-practice methods and online resources to aid students interested in advancing their oral language proficiency. While not intended as a SPEAK-test preparation course, a commitment to improving spoken fluency in English may result in an improved assessment on oral proficiency tests. Students will exit the course more aware of their individual fluency challenges and with a clear idea about how to make progress on their own.

This class will meet Mondays and Wednesdays during 5th period (2:00 pm – 3:15 pm) in Yon 320. The third hour will be one-on-one with the course instructor. This third hour will be TBA (based on the students' availability). The class will start on Monday May 08. The cost of this course will be \$500 for the six-week course. This class is not eligible for a tuition waiver and is not offered as a distance education class. Registration in this course will be limited.

To register for the Advanced Oral Proficiency class, please visit:
